

Addendum No. 1
Bid Date: April 7, 2015
to the
Plans, Specifications and Contract Documents
for
KOWA Kentucky Utility Project
Corbin, Kentucky

Issued April 1, 2015

The following additions, deletions, changes or revisions are issued herewith and become a part of the Project Documents.

Specifications/Contract Documents:

Bid Item No. 7: In addition to the pump station work described in Item 7, the Contractor shall supply to the Owner a spare pump, identical to the two that are installed, for Owner's storage and use in an emergency as a replacement pump.

Sheet E-1: Panel A is to be in a NEMA 4X Stainless Steel enclosure as shown on Sheet PS-1 and called for in Section 11220. Pump Starters are to be RVSS (solid state) soft start type. This is a correction of spec Section 11220, Paragraph B.5. The Owner prefers the pump control panel to use transducer and Scada PLC liquid level controls to be compatible with other existing stations.
